Kew's mission is to understand and protect  
plants and fungi, for the wellbeing of people  
and the future of all life on Earth.

Kew receives approximately one third of  
its funding from Government through the  
Department for Environment, Food and  
Rural Affairs (Defra). All other funding  
needed to support Kew's vital work comes  
from members, foundations, donors and  
commercial activities, including book sales.

The information in this book is intended to expand the reader's understanding of the cultural heritage of plants and medicine. It does not purport to be, nor is it intended to be, a medical manual or a self-treatment guide for the use of medicinal or other plants and is not a substitute for advice from a healthcare professional. You should consult your medical practitioner before engaging in any of the information detailed in this book. You should not use the information in this book as a substitute for medication or other treatment prescribed by your medical practitioner.

The publisher, the Royal Botanic Gardens, Kew and the authors and editors make no representations or warranties about the efficacy of the plants and compounds mentioned in the book, and specifically disclaim, without limitation, any implied warranties of merchantability or fitness for a particular purpose and any injury, illness, damage, liability or loss incurred, directly or indirectly, from the use or application of any of the contents of this book. Furthermore, the publisher, the Royal Botanic Gardens, Kew and the authors do not endorse the use of these plants for any of the applications described and are not responsible for any consequences arising from the use of this information for whatever reason.

## CONTENTS

<b>PREFACE</b>	9
<b>A NOTE ON PLACE NAMES, DATING AND ORTHOGRAPHY</b>	12
<b>PART 1</b>
